

Lindsey is a 3rd Grader at Lakes Elementary School in Lacey, WA...

Her Science Fair Project... RD FRESH...

In the refrigerator without RD FRESH, the first sign of mold occurs on Day 6.

In the refrigerator with RD FRESH, after 14 days, not a sign of mold....!!!!

Save Money

Materials

- Strawberries
- Camera
- Refrigerator
- Zeolite powder

Procedure

First we bought strawberries. Second we put the strawberries in the refrigerator, one with zeolite and one without. Third we observed and took pictures daily. Last we compared our results.

Conclusion

The one with the zeolite stayed fresh longer. On day 14 the strawberries without had begun to mold. On day 14 the strawberries with Zeolite appeared and still able to be eaten.
